

FOR THE EXTRAS IN LIFE..

These four substantial luxury villas are set in a prime leisure location. Situated next door to the refurbished Sandpits private tennis club and the beautiful national Alameda gardens. These four superb town houses offer spacious light and modern accommodation and proved a real winner for the family market in Gibraltar. Decked out with Poggenpohl kitchens, John Sydney tap ware and Duravit appliances in the bathrooms, polished wooden floors flowing through the spacious reception, dining rooms and kitchens. The emphasis in the design was on space, with living areas of some plus 200 sqm each. They are very large houses. Built on three levels, the main reception area is built on the first floor. Each house has its own large double garage. There is also a separate utility room, ample storage space and up to four terraces. Added extras include fireplaces in the living rooms, air-conditioning and double glazing.
